

LIFE ASSURANCE®
From The Amino Technology Company™

WHAT IS LIFE ASSURANCE® ?

Life Assurance is a unique multiple vitamin, mineral, amino acid and fatty acid (from plant sterols) formula.

WHY IS LIFE ASSURANCE® BETTER?

Life Assurance has been balanced to reflect the natural concentrations of vitamins and minerals in human cells.

The minerals contained in **Life Assurance** have been **chelated** (stabilized for greater absorption and utilization by either forming a protein bond around the mineral or reacting it with specific amino acids) to insure absorption and utilization without free radical type of cell damage.

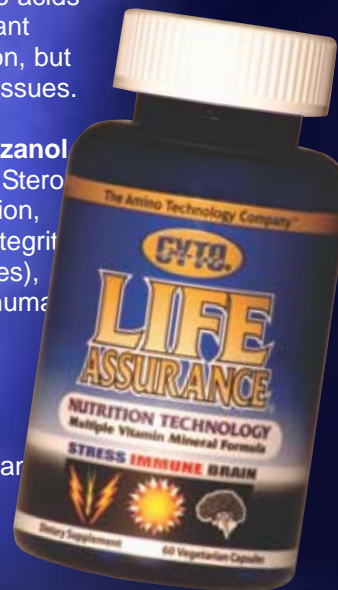

Life Assurance contains 18 amino Acids from **Hydrolyzed** (amino acids have been freed up) **Collagen**. **Collagen** (one of the most important building blocks in our bodies) not only stabilizes and aids absorption, but also supports repair of bone, skin, cartilage and other connective tissues.

The **Plant Sterols** contained in **Life Assurance** from **Gamma Oryzanol** (rice germ oil), **Octacosanol** (wheat germ oil) and **Ferulic Acid** (a Sterol fractionated from Gamma Oryzanol), will support hormone production, immune function, energy production, oxygen carrying ability, cell integrity, insulin response, reduction of leukotrienes (inflammatory hormones), control of other fats, and many other biochemical functions in the human body.

WHY DO I NEED LIFE ASSURANCE® ?

We live in a fast world with many stress factors; psychological, physiological, environmental and not always having time to hunt down and prepare foods from all of the food groups which would guarantee a balanced supply of vitamins, minerals, amino acids and fatty acids.

We have done the chemistry for you !
