

AMINO BUILD™

From The Amino Technology Company™

WHAT IS AMINO BUILD?

Amino Build is a full spectrum, profiled (balanced), free form amino acid supplement.

WHAT DOES AMINO BUILD DO?

Amino acids are the building blocks of the human body. Most of our physiological functions are carried on both by free amino acids and also by combining amino acids into proteins, hormones, enzymes and immune bodies. Amino acids are an intricate part of all human tissues.

WHY IS AMINO BUILD BETTER?

Most of the amino acid supplements on the market today are from partially predigested proteins. They may require further digestion and contain food residues that cause allergy. The amino acids contained in **Amino Build** are 100% free and require no further digestion and no food residues that may cause allergy. Within 30 minutes after ingestion, the amino acids in **Amino Build** formula are in the blood stream ready to build new proteins, tissues, hormones, immune bodies, and enzymes.

AMINO BUILD BOOSTS ATHLETIC PERFORMANCE!

Muscle performance, growth, and recovery are dependent on a constant supply of amino acids. Integrating **Amino Build** into your training and diet regimen will speed results.

WHO NEEDS AMINO BUILD?

Because amino acids are required in all biochemical functions in the human body everyone can benefit from **Amino Build**.
