

DHEA WITH PREGNENOLONE

From The Amino Technology Company™

ADRENAL SUPPORT COMPLEX FOR MEN AND WOMAN

WHAT IS CYTO-CHARGE DHEA / PREGNENOLONE FORMULA?

DHEA and Pregnenolone are hormones produced by the adrenal glands and sometimes referred to as adaptogenic as they can change their molecular structure to synthesize up to 150 different hormones.

DHEA / PREGNENOLONE FORMULA IS FOR BOTH MEN AND WOMEN

These adaptogenic hormones are converted into Androgens in males and estrogens in females. DHEA / Pregnenolone also provides backup for hormones produced in the testis in men and in the ovaries for women.

WHY SUPPLEMENT WITH DHEA / PREGNENOLONE?

Hormones are commonly referred to as the "Fountain of Youth".

As we age we experience a decline in some hormones. This may lead to muscle wasting, weak bones, lowered immune function, weight gain, low energy, reduced sex drive, and mood and memory problems. Keeping hormone levels balanced is a major part of slowing the aging process.

DHEA / PREGNENOLONE AND WEIGHT LOSS

Obesity may occur for a number of biochemical reasons. DHEA / Pregnenolone formula may be of some benefit by inhibiting an enzyme that converts excess calories to stored fat so that they can be burned off as heat energy.

DHEA / PREGNENOLONE AND BRAIN FUNCTION

Although we do not know the exact biochemical pathways in which DHEA and Pregnenolone regulate brain function, tests with supplemental DHEA / Pregnenolone show a rise in brain sex regulating hormones and a greater capacity for memory and learning.

DHEA / PREGNEOLONE HAS BEEN FOUND TO HAVE BENEFICIAL EFFECTS ON THE FOLLOWING:

- ANTI-AGING
- ARTHRITIS
- IMMUNE DISORDERS
- OSTEOPOROSIS
- HEART DISEASE
- DIABETES
- CHRONIC FATIGUE
- MEMORY & LEARNING
- OBESITY
- DECREASED SEXUAL DESIRE

Each Vegetarian Capsule Contains:

Glycine 50mg, Dehydroepiandrosterone (DHEA) 25mg, Pregnenolone 25mg, Vitamin C (as Sodium Ascorbate) 25mg, Pantothenic Acid (as Calcium Pantothenate) 5mg. Other Ingredients: Cellulose, Magnesium Stearate, Carbohydrate Polymer, Silica.
